Parents- As of right now, our 21CCLC grant has funding to support some June summer programs. Please be watching for additional information coming home in the near future with summer registration forms. This federal grant is in danger of not being funded in the future~ current efforts are in place to ensure Superior will again have access to these funds in the coming years for after school and summer activities. Parent surveys will be coming home soon; please complete in order to let Washington DC folks know how much we depend on these valuable programs to educate, inspire and have quality programs here in Superior for our K-12 kiddos. Thank You. dawn
